

# Rustic Wall 1.5" Concealed Fastener

## Technical Reference

## Product Overview

### Features

- 22 Gauge A606 Weathering Steel (aka Corten) or Bare Cold Rolled Steel
- Rustic Wall 1.5" has a unique look and naturally oxidizing finish that make it especially desirable for many architectural projects.
- A606 ( AKA Corten ) has different corrosion resistance characteristics vs. bare cold rolled steel.
- Matching trim and flat stock available for rusty metal panels.
- Painted screws are available to match this rusty steel panel.
- Multiple panel widths and reveals are available on special inquiry

### Recommendations and Cautions

- Rustic Wall 1.5" performs best in environments with low humidity
- Installation is recommended for vertical wall applications and horizontal soffits
- Not recommended near salt spray environments and frequent rain locations as it will shorten the life expectancy of the products.
- Acid washing will degrade steel performance.
- Rust runoff will likely stain the surrounding surfaces.
- **NO WARRANTIES FOR THESE PRODUCTS**
